DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	20 April 2026	Original courseware release.	Tertiary Infotech Academy Pte Ltd
2.0	13 August 2026	Rebuilt from the approved four-LU structure and legacy deck. Added business-presentation principles, do-and-don't comparisons, worked examples, current AI-tool decision guidance, eight connected activity packs, and source traceability. Detailed procedures moved to the Learner Guide and activity folders; the slides remain concept-led and visual.	Tertiary Infotech Academy Pte Ltd

Course Information

Course Title	Generative AI for Business Presentations
WSQ Course Reference	TGS-2026061325
TSC Reference	Business Presentation Delivery (TAC-BIN-5077-1.1) · Level 5
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN: 201200696W)
Duration	2 days · 9:00am–6:00pm · 16 hours including 2 assessment hours
Mode	Instructor-led classroom with individual and small-group practice
Methods	Interactive presentation, demonstrations, case studies, AI tool comparison, peer rehearsal and reflection
Equipment	Presentation computer, projector, internet, PowerPoint/Microsoft 365; learner access to approved AI presentation tools where available

Learning Outcomes

- LO1: Establish business presentation objectives and select presentation modes according to organisational context and stakeholder needs.
- LO2: Determine presentation deliverables and design targeted presentation collaterals using suitable generative AI tools.
- LO3: Deliver appropriate business messages using suitable presentation modes and techniques to engage, persuade and handle discussion.
- LO4: Review presentation outcomes and recommend improvements using evidence, feedback and continuous-improvement methods.

Assessment

- Written Assessment (WE) — four open-ended questions, 1 hour, open book.
- Case Study (CS) — one scenario with four mapped tasks, 1 hour, open book.
- Assessment block: Day 2, 4:00pm–6:00pm.
- Grading: Competent / Not Yet Competent.
- A minimum of 75% attendance is required for assessment eligibility. Learners must be assessed as Competent and complete the TRAQOM survey.

Daily Schedule

Day 1 — Context, objectives, modes and AI-assisted presentation design

Time	Duration	Topic / Activity	Slides
9:00–9:20	20 min	Welcome, ground rules,	—

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

		course outcomes and mandatory digital attendance	
9:20–10:40	80 min	**LU1 concepts and Activity 1 — Decision-Ready Presentation Brief**	Slides 17–30
10:40–10:50	10 min	Tea break	—
10:50–12:00	70 min	Activity 2 — AI Tool Fit and Risk Matrix; LU1 recap	Slide 38
12:00–1:00	60 min	Lunch break	—
1:00–2:30	90 min	**LU2 story architecture and Activity 3 — Executive Story Spine with Claude or Copilot**	Slides 43–56
2:30–2:40	10 min	Tea break	—
2:40–4:10	90 min	Activity 4 — AI Draft-to-Deck Design Studio: AI draft-to-deck studio	Slide 64
4:10–4:20	10 min	Tea break	—
4:20–5:50	90 min	**LU2 consolidation: tool comparison, human review, deck critique and export checks**	Slides 43–64
5:50–6:00	10 min	Day 1 recap, questions and PM digital attendance	—

Counted training and assessment time: 480 minutes (8.0 hours).

Day 2 — Delivery, discussion, review and assessment

Time	Duration	Topic / Activity	Slides
9:00–9:15	15 min	Day 1 recap and mandatory digital attendance	—
9:15–10:30	75 min	**LU3 visual evidence and Activity 5 — Evidence-to-Visual Upgrade with Napkin**	Slides 69–82
10:30–10:40	10 min	Tea break	—
10:40–11:55	75 min	Activity 6 — Delivery and Q&A Rehearsal	Slide 90
11:55–12:30	35 min	Activity 7 — Negotiation Deck Challenge (brief and preparation)	Slide 99
12:30–1:30	60 min	Lunch break	—
1:30–2:40	70 min	**Complete Activity 7; LU4 review principles and Activity 8 briefing — Presentation Review and Improvement Sprint**	Slides 99–117
2:40–2:50	10 min	Tea break	—
2:50–3:40	50 min	Activity 8 — Presentation Review and Improvement Sprint; review and version-control debrief	Slide 117
3:40–4:00	20 min	**Course wrap-up,**	Slide 12

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

		TRAQOM, assessment briefing and attendance	
4:00–5:00	60 min	**Written Examination (WE) — four open-ended questions, open book**	Slide 13
5:00–6:00	60 min	**Case Study (CS) — one scenario with four tasks, open book**	Slide 129

Counted training and assessment time: 480 minutes (8.0 hours).

Topic-by-Topic Facilitation Notes

LU1 — Context, Objectives and Modes · Slide 17

Business context · Stakeholders · Audience needs · Objectives · Mode selection · AI readiness

- Business presentations exist to inform, recommend, persuade, align or decide; the desired audience action defines success.
- Organisational context, stakeholder power and audience knowledge determine the message depth, tone and evidence needed.
- A precise objective combines audience, action, outcome and success evidence before any slide is generated.
- Mode selection — live, virtual, hybrid or self-guided — changes interaction design, pacing, accessibility and follow-up.

Activity 1 — Decision-Ready Presentation Brief · Slide 30

Objective: frame a presentation objective, audience action, evidence need and delivery mode.

Method: Case study / workshop · Duration: 45 minutes · Output: A one-page presentation brief and mode-selection rationale.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

Activity 2 — AI Tool Fit and Risk Matrix · Slide 38

Objective: select an AI presentation workflow based on task fit, editability, governance and export requirements.

Method: Case study / workshop · Duration: 40 minutes · Output: A weighted AI-tool decision matrix and a human-in-the-loop production chain.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

LU2 — AI-Assisted Story and Collateral Design · Slide 43

Deliverables · Story architecture · Prompting · Tool selection · Visual hierarchy · Human review

- A business deck uses a clear storyline: situation, complication, key question, answer, evidence and next action.
- Conclusion-first structure and action titles help executives understand the point before examining the detail.
- AI tools differ in research, generation, brand control, collaboration, editability and export quality; choose by task and risk.
- Human review must check factual accuracy, confidentiality, copyright, accessibility, brand fit and decision usefulness.

Activity 3 — Executive Story Spine with Claude or Copilot · Slide 56

Objective: turn a presentation brief into a conclusion-first business storyline and slide map.

Method: Case study / workshop · Duration: 45 minutes · Output: A nine-slide story map with action titles, evidence notes and appendix plan.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

Activity 4 — AI Draft-to-Deck Design Studio · Slide 64

Objective: generate and refine an editable, branded and accessible presentation draft.

Method: Case study / workshop · Duration: 50 minutes · Output: A nine-slide editable draft plus an AI-output audit sheet.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

LU3 — Engage, Persuade and Handle Discussion · Slide 69

Message delivery · Data storytelling · Speaker support · Q&A · Negotiation · Virtual and hybrid delivery

- Delivery integrates content, organisation and presence: opening, signposting, evidence, transitions, close and call to action.
- One message per slide, readable visuals and evidence-led charts reduce cognitive load and strengthen persuasion.
- Questions reveal stakeholder concerns; acknowledge, clarify, answer with evidence and confirm whether the concern is resolved.
- Negotiation slides make interests, options, trade-offs, boundaries and decisions visible without overwhelming the audience.

Activity 5 — Evidence-to-Visual Upgrade with Napkin · Slide 82

Objective: replace weak text and decorative graphics with decision-useful visual evidence.

Method: Case study / workshop · Duration: 45 minutes · Output: Three presentation-ready visual slides and a completed visual-quality checklist.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

Activity 6 — Delivery and Q&A Rehearsal · Slide 90

Objective: deliver a concise recommendation and respond to stakeholder questions with evidence.

Method: Role play · Duration: 45 minutes · Output: A timed rehearsal, peer scorecard and revised speaker-note set.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

Activity 7 — Negotiation Deck Challenge · Slide 99

Objective: support a business negotiation with clear interests, options, trade-offs and decision boundaries.

Method: Role play · Duration: 40 minutes · Output: A four-slide negotiation pack and a documented conditional agreement.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

LU4 — Review Outcomes and Improve · Slide 105

Success measures · Feedback · Analytics · AI critique · Version control · Continuous improvement

- Outcome measures connect the original objective to evidence such as decisions, actions, understanding and follow-through.
- Feedback should separate storyline, evidence, design, delivery and interaction so the team knows what to improve.
- AI critique is a useful second opinion, not an assessor of truth; prompts must specify audience, goal and review criteria.
- A repeatable review loop captures findings, prioritises changes, assigns ownership, controls versions and retests the deck.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Activity 8 — Presentation Review and Improvement Sprint · Slide 117

Objective: evaluate presentation outcomes and prioritise evidence-based improvements.

Method: Case study / workshop · Duration: 50 minutes · Output: An outcome scorecard, improvement backlog, version record and revised three-slide sample.

Facilitation: introduce the scenario and decision criteria from the slides; learners follow the detailed procedure in the Learner Guide and activity folder. Debrief against the stated check, not aesthetic preference.

Resources and Trainer Preparation

- Open the final PPTX and backup PDF; verify fonts, links, animations and presenter display.
- Provide the Learner Guide and the eight individual activity folders before each activity.
- Confirm which AI tools are approved and accessible; never require learners to upload restricted information.
- Use the included sample decks as worked examples, not as mandatory visual templates.
- Prepare digital-attendance and TRAQOM access; keep assessment answer keys trainer-only.
